

The farmdoc Sponsorship Program

In the agricultural community, the need for sound economic information and unbiased analysis has never been greater. Since 1999, *farmdoc* has provided that service through:

- Business management resources and decision support for agricultural producers and agribusinesses
- Round-the-clock access to integrated information and expertise on farm management topics
- Weekly outlook newsletters, bi-weekly farm management reports and agricultural law and taxation briefs
- Decision tools and databases, including FAST spreadsheets and crop insurance tools.
